Melissa Paige

Co-CEO, Healthcare
Advocate Summit

Question 1

Beyond just improving efficiency, in what ways do you believe integrated solutions fundamentally reshape patient access models to drive better long-term health outcomes?

What are the biggest missed opportunities in integrating systems across stakeholders?

Question 2

What are the most significant barriers hindering optimal patient access in healthcare, and which initiatives would have the greatest impact in overcoming them?

Question 3

How can we bridge the gap between data collection and actionable insights to create a more responsive, patient-centered ecosystem?

What are the biggest roadblocks to ensuring upstream partners have real-time visibility into downstream needs?

Question 4

Can you share insights on how portals and hubs are currently set up and how they can be optimized for greater efficiency in patient access management?

Question 5

What is one game-changing shift that could truly enhance patient access?

Q & A
