

Greenbuild 2026: NYC

From Deconstruction to Restoration: Scaling Reuse Via Public-Private Partnerships

Here are some helpful links to follow up on:

Greenbuild resources:

Our website for all things circular:

[Www.reuseconsulting.com](http://www.reuseconsulting.com)

King County, Washington, is working with us and making an ongoing commitment to circularity in the built environment:

<https://kingcounty.gov/en/dept/dnrp/about-king-county/about-dnrp/newsroom/2024-news-releases/09-17-deconstruction-training>

EPA funded a training to encourage future partnerships and resiliency efforts:

<https://islandgreenliving.org/current/sustainable-deconstruction/>

Cornell working with both government funding and local businesses to explore circularity:

Source: Cornell University <https://share.google/Y1WDYVp6cd592q49P>

NYC is making a commitment to reducing carbon and creating thousands of green collar jobs in the City:

<https://edc.nyc/circular-design-construction-guidelines>

<https://edc.nyc/sites/default/files/2024-03/NYCEDC-Circular-Construction-Guidelines-03-07-2024.pdf>

Example of a Reuse Innovation Center (unfunded so imagine what it could be if a public entity partnered up):

Www.reusecenter.net

Example of a public-private partnership in action:
