Conflict of Interest

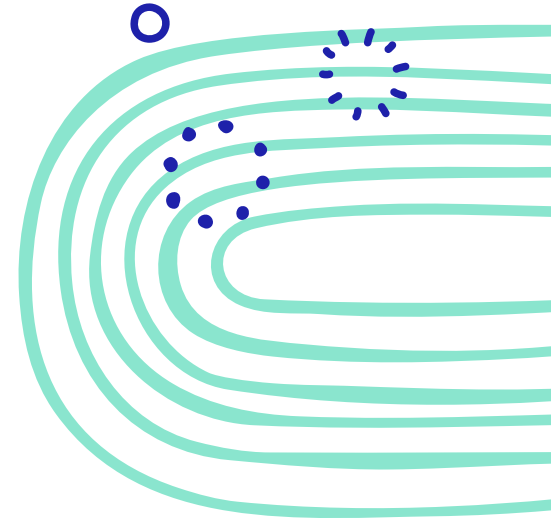

All panelists have no real or apparent conflicts of interest to report.

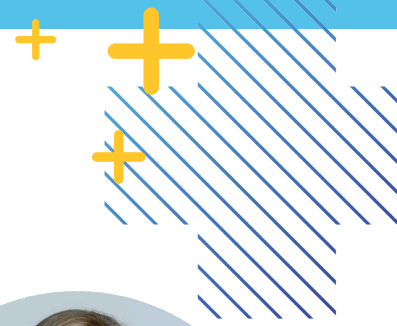

Learning Objectives

After attending this session, participants will be able to:

- Describe current public health data modernization initiatives, including key achievements, ongoing challenges, and emerging priorities
- Explain the impact of public policy, advocacy efforts, and funding mechanisms on public health data modernization and public health - healthcare information exchange
- Identify effective partnership models among health systems, public health agencies, and market suppliers that support sustainable and scalable information exchange
