DISCLAIMER

This presentation contains summary information about Andrada Group and its subsidiaries (Andrada or Company) and their activities. The information in this presentation is a general background and does not purport to be complete or provide all information that an investor should consider when making an investment decision.

No representation or warranty, express or implied, is provided in relation to the accuracy or completeness of the information. Statements in this presentation are made only as of the date of this presentation unless otherwise stated and the information in this presentation remains subject to change without notice. The Company is not responsible for updating, nor undertakes to update, this presentation.

Certain statements contained in this presentation, including information as to the future financial or operating performance of Andrada and its projects, are forward-looking statements. Such forward-looking statements:

- Are necessarily based upon several estimates and assumptions that, while considered reasonable by Andrada, are inherently subject to significant technical, business, economic, competitive, political and social uncertainties and contingencies;
- Involve known and unknown risks and uncertainties that could cause actual events or results to differ materially from estimated or anticipated events or results reflected in such forward-looking statements; and
- May include, among other things, statements regarding targets, estimates and assumptions in respect of production and prices, operating costs and results, capital expenditures, mineral reserves and mineral resources and anticipated grades and recovery rates, and are or may be based on assumptions and estimates related to future technical, economic, market, political, social and other conditions.

Andrada disclaims any intent or obligation to update publicly any forward-looking statements whether as a result of new information, future events or results or otherwise.

The words ‘believe’, ‘expect’, ‘anticipate’, ‘indicate’, ‘contemplate’, ‘target’, ‘plan’, ‘intends’, ‘continue’, ‘budget’, ‘estimate’, ‘may’, ‘will’, ‘schedule’ and similar expressions identify forward looking statements.

Andrada is not aware of any new information or data that materially affects the information for the Mineral Resource and confirms that all material assumptions and technical parameters underpinning the estimates continue to apply and have not materially changed.

To the maximum extent permitted by law, Andrada and any of its related bodies corporate and affiliates and their officers, employees, agents, associates and advisers:

- Disclaim any obligations or undertaking to release any updates or revisions to the information to reflect any change in expectations or assumptions;
- Do not make any representation or warranty, express or implied, as to the accuracy, reliability or completeness of the information in this presentation, or likelihood of fulfilment of any forward-looking statement or any event or results expressed or implied in any forward-looking statement; and
- Disclaim all responsibility and liability for these forward-looking statements (including, without limitation, liability for negligence).

Nothing contained in this presentation constitutes investment, legal, tax or other advice. The information does not take into account the investment objectives, financial situation or particular needs of any recipient. Before making an investment decision, each recipient of this presentation should make its own assessment and take independent professional advice in relation to the information and any action taken on the basis of this presentation.

Cu	Copper
W	Tungsten
Rb	Rubidium

OUR PROJECTS

Only tin producer listed on AIM

Uis Mining Licence

Flagship cash generating tin mine

- Funded via equity and institutional lenders
- Cash flow engine for the Group
- Direct exposure and high margin asset in tin bull market
- Increasing tin production
- Funded lithium study via the European Investment Bank

01

Lithium Ridge

Significant lithium discovery

- High-grade lithium discovery
- Tin and tantalum by-products
- Additional pegmatites identified
- Third drill rig added to aggressively drill out the deposit
- 3 Stage DFS funding (US$40 million) by SQM

02

Brandberg West

Huge tungsten exposure

- Low entry access into the tungsten market
- Aggressive campaign initiated
- Additional tin and copper upside
- 2 stage funding (US$51 million by ACAM LP) for drilling and metallurgical testwork

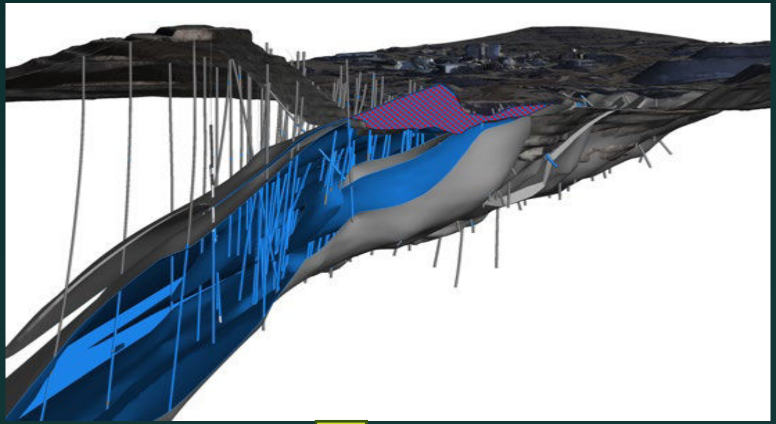
03

Clear, focused and funded growth

UIS MINE

Restarting a historical tin mine

From Pilot to Commercial Production in 5 Years



From Modelling to Mining

UIS MINE TIMELINE

Fast-tracked to multi-commodity production

Uis Mine: Development Timeline

2016
Starting pilot operation

2017
Listed on AIM

2018
Commenced infill drilling

2019
First commercial production of tin concentrate

2022
Doubled tin production

2023
Added tantalum concentrate

2025
Completed pre-feasibility study for lithium expansion

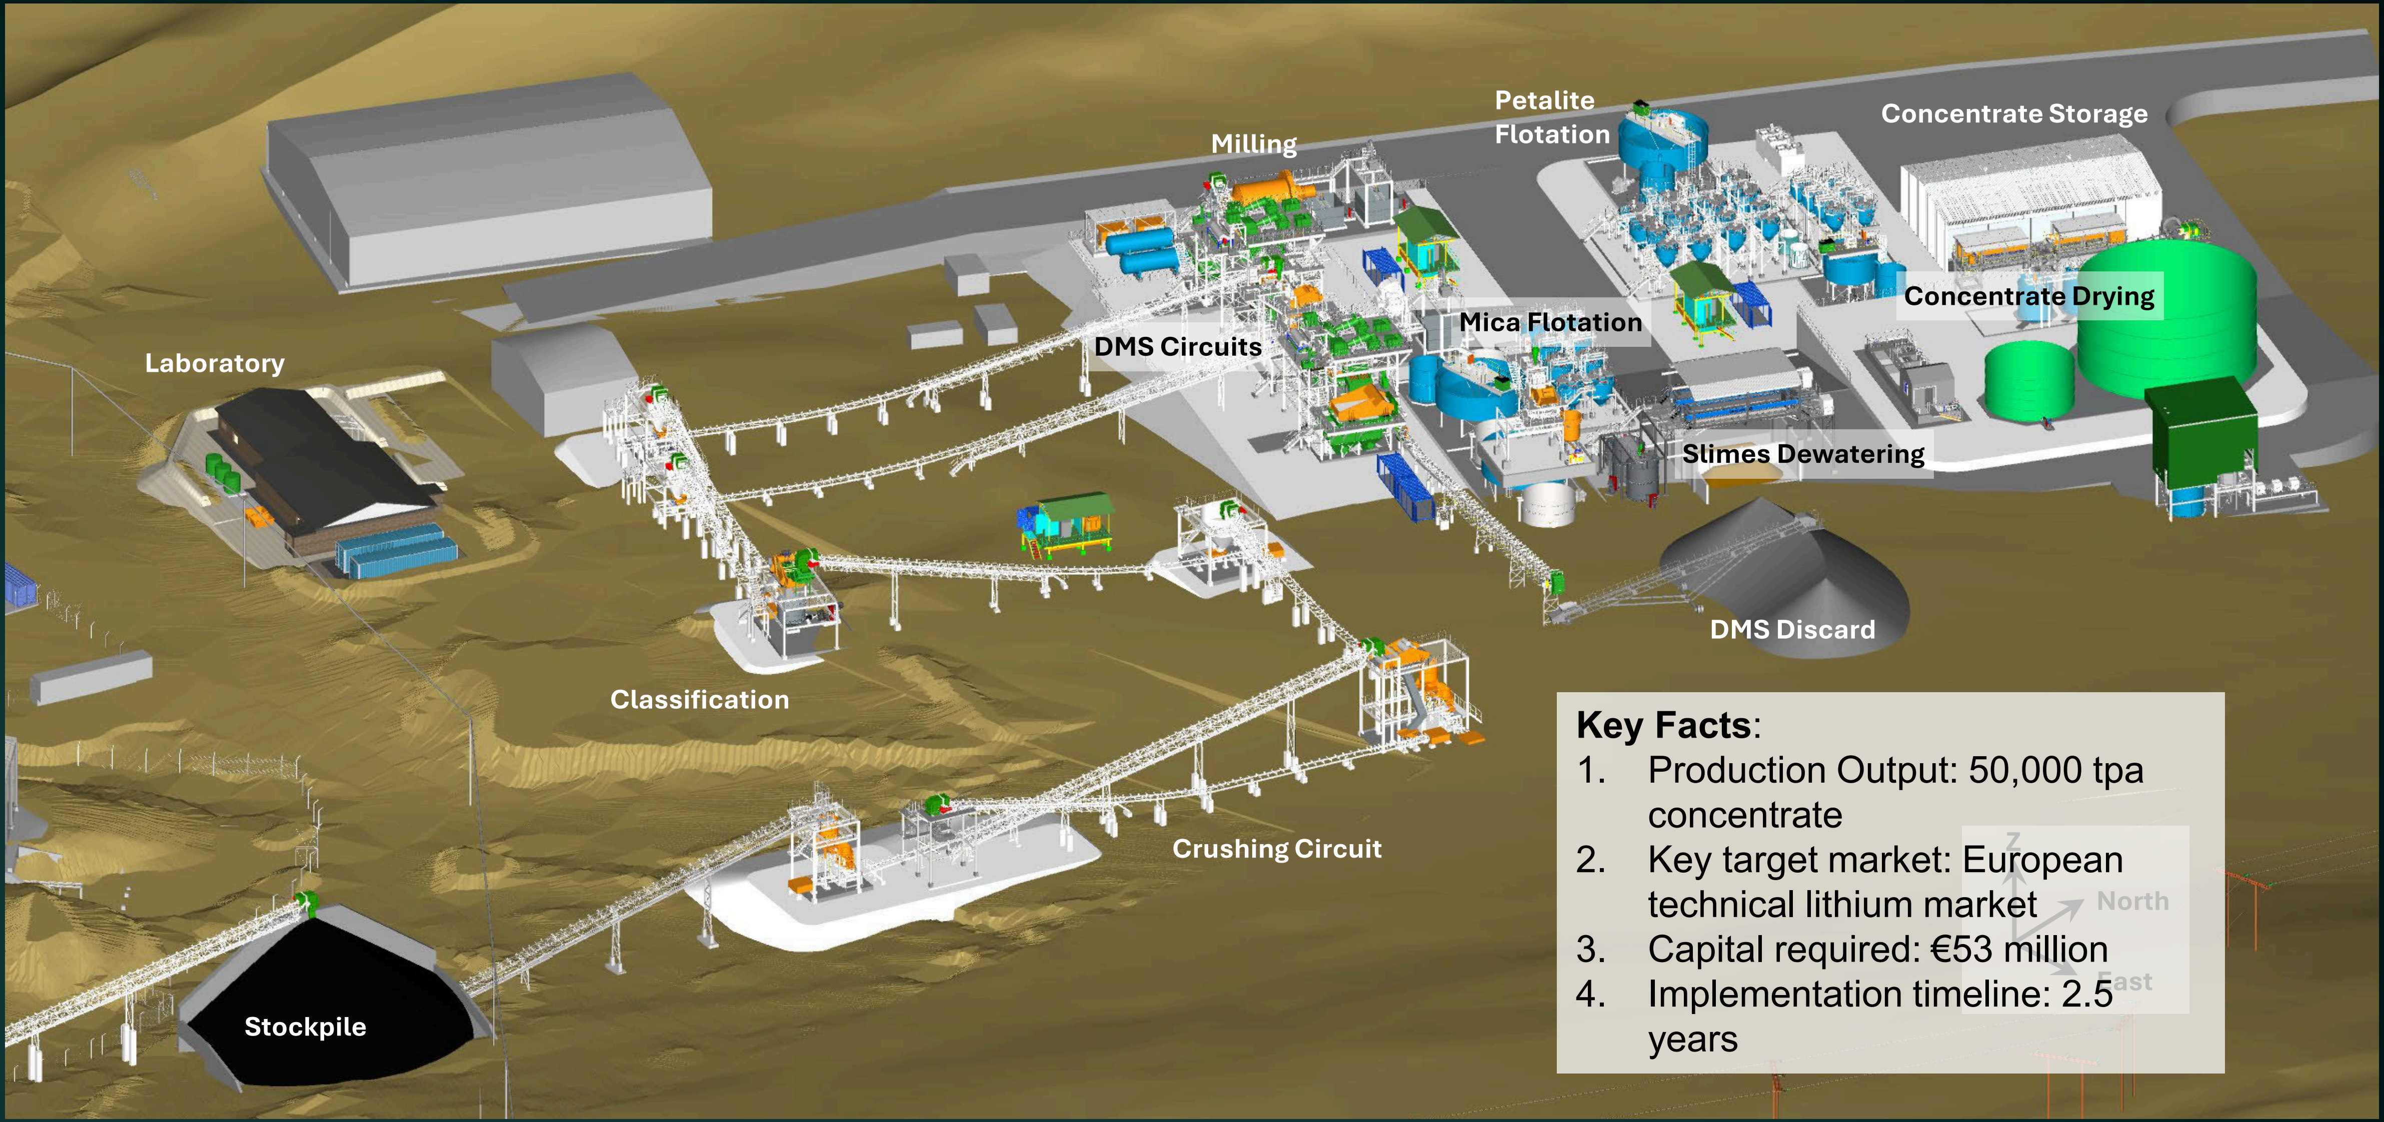
2026
Conclude agreement with EIB to advance lithium project to bankability

2027
Conclude lithium Definitive Feasibility Study
Lithium construction funding
Expand tin/tantalum production by 60%

2028
First production of lithium concentrate

UIS MINE LITHIUM EXPANSION PROJECT

Establishing a high-purity lithium concentrate



Key Facts:

1. Production Output: 50,000 tpa concentrate
2. Key target market: European technical lithium market
3. Capital required: €53 million
4. Implementation timeline: 2.5 years

KEY LEARNINGS & RECOMMENDATIONS

Navigating the world of project development

Project Development

Moving from exploration to mining

> Exploration drilling is the foundation of a good mining project

> Establish a geometallurgical model

> When to move into production?

> Piloting vs commercial production

> Create sufficient buffers of capital and time for your project.

European Union

Accessing markets, financing, technology

> EU institutions are well-structured and world-class

> However, EU institution and markets are not vertically integrated

> The role of investment promotion and development agencies should not be underestimated

> Understand the downstream and upstream value chain of the market that you want to sell into

> Facilitating access to minerals processing technology is key

SQM ACAM LP TALENT 10

Key Factors

Barriers and success factors

> Equity is a key requirement for project establishment, early growth and unlocking other forms of funding

> Acquire the right owner's team

> Earn-in partnerships are a great way progressing projects in the pre-bankability phase

> Local partnerships is key to sustainable project development.

> Find a way of generating cash flow
