

## Room 2

## **SESSION 5: Presentation of Investment Opportunities in the DIGITAL sector**

**Day 2 – 10 June 2026 – 10:30-12:300**

### **Context**

The Government of Mozambique is advancing an ambitious digital transformation agenda aimed at strengthening connectivity, modernizing public services, accelerating financial inclusion and enabling economic growth through Digital Public Infrastructure (DPI). Recognizing the critical role of private sector participation, the Government seeks to engage strategic investors, technology providers, operators, and development finance institutions through a curated business-to-Government (B2G) platform focused on Public-Private Partnerships (PPPs). The session will convene high-level government representatives and selected private sector stakeholders to explore investment-ready digital infrastructure opportunities.

### **Session Objectives**

- Present Mozambique's priority DPI investment pipeline.
- Showcase Strategic PPP opportunities.
- Facilitate direct engagement between Government and private sector.
- Identify implementation and financing partners.
- Generate concrete follow-up actions and investment discussions.

### **Priority Sector Areas in the Digital Sector – Ministry of Communications and Digital Transformation (MCTD)**

- **Digital Infrastructures**
  - Expand connectivity across country.
  - Data Centres and cloud infrastructure.
- **Government Digital Platforms**
  - Digital public services.
  - Interoperability.

- Government payment services.
- **Identity and Digital Trust**
  - Secure authentication.
  - Data protection.
  - Cybersecurity.
- **Digital Economy and Innovation**
  - Start-ups, Fintech, AI and Innovation.
- **Digital Capacity Building**
  - Literacy, inclusion and skills.

## Session format

The session will have a total duration of 90 minutes and will proceed as follows:

- Opening & Political Framing (10 min)  
*by H. Exc. Minister Muchanga*
- Presentation of Priority areas for the Ministry (30 min)
- Questions and Answers (20 min)
- Bilateral Meetings / Networking

## Expected results

- Identification of strategic partners.
- Expressions of interest.
- Follow-up technical engagements.
- Investment pipeline development.
- Enhanced visibility of Mozambique's digital transformation agenda.

## Participants

- **Government:** MCTD (including INTIC, INCM and ATDI) / APIEX / GCRPE.
- **Private Sector:** Telecom operators / Cloud providers / GovTech companies / Infrastructure investors / Data centre operators / Cybersecurity firms / Fintech companies.

- **Development Partners:** DFIs / Regional development banks / Multilateral organizations / Technical cooperation agencies.

## Conclusion

The session seeks to establish a results-oriented platform that catalyses strategic partnerships and mobilizes investment toward the country's digital transformation priorities. By bringing together Government, investors and technology leaders, the forum aims to accelerate implementation of scalable and inclusive digital infrastructure initiatives across Mozambique.
