

SOFTWARE AND PROFESSIONAL SERVICES

Infor CloudSuite Industrial (CSI SyteLine)

What's Infor CloudSuite Industrial?

Infor CloudSuite Industrial is a cloud-based enterprise resource planning (ERP) system that supports all the major processes of a typical manufacturing company:

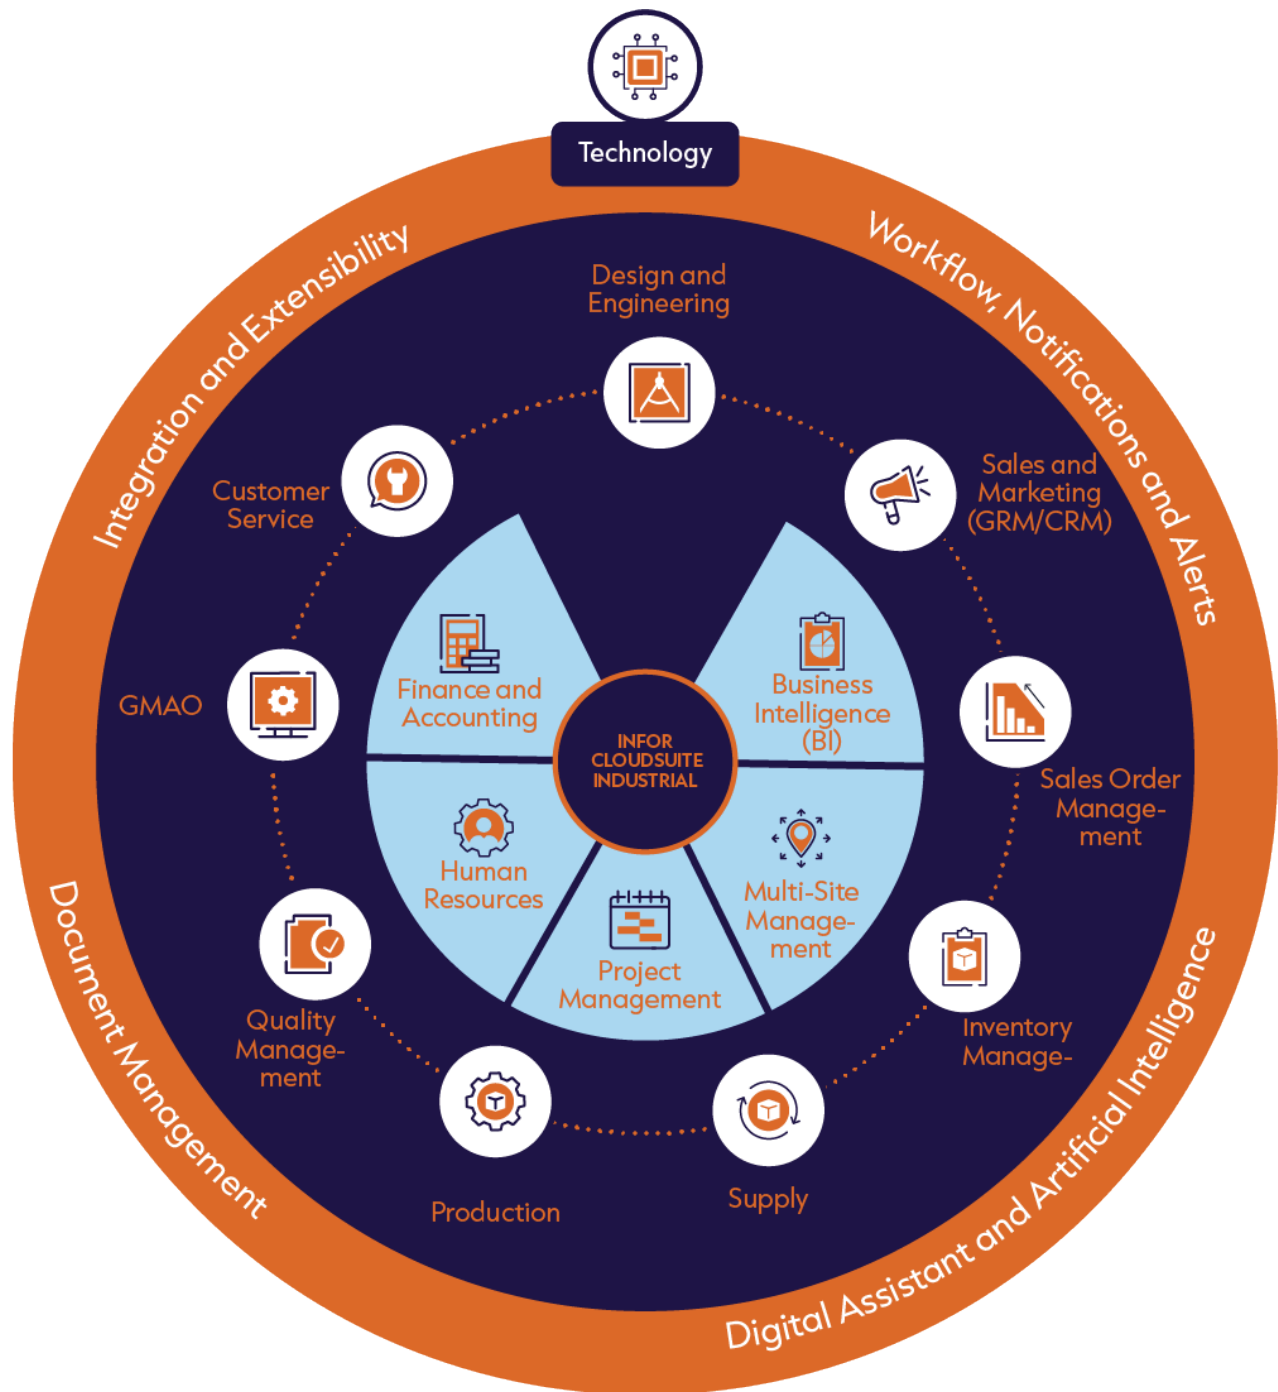

From Sales
SUBMISSION
to Collection

From
PURCHASE
Order to
Payment

From
PLANNING
to Production

From
BUDGET
to Financial
Statements

It also contains functions for managing a multitude of other areas of the organization, including:

NOVIPRO and Infor CloudSuite Industrial extend the capabilities of your enterprise resource planning (ERP) beyond the basics:

Business Intelligence (BI) and Analytics

Notification and Approval Management Tool (workflow)

Integration of External Solutions

End-to-End Production Automation (Infor Factory Track)

Workforce and Attendance Tracking

Production Activities

Improvement Productivity and Efficiency

Management of Stock Movements (barcodes)

A Long-Standing Partnership

Thanks to our partnership with Infor since 2006, NOVIPRO has a team of professionals specialized in the industrial ERP. Available 24/7, we target your specific needs to align them perfectly with your business objectives. Rely on our expertise to maximize the potential of your enterprise resource planning (ERP) system and boost your company's ongoing success.
