

+ENERGIA FACILITY

RENMOZ Conference

11 June 2026

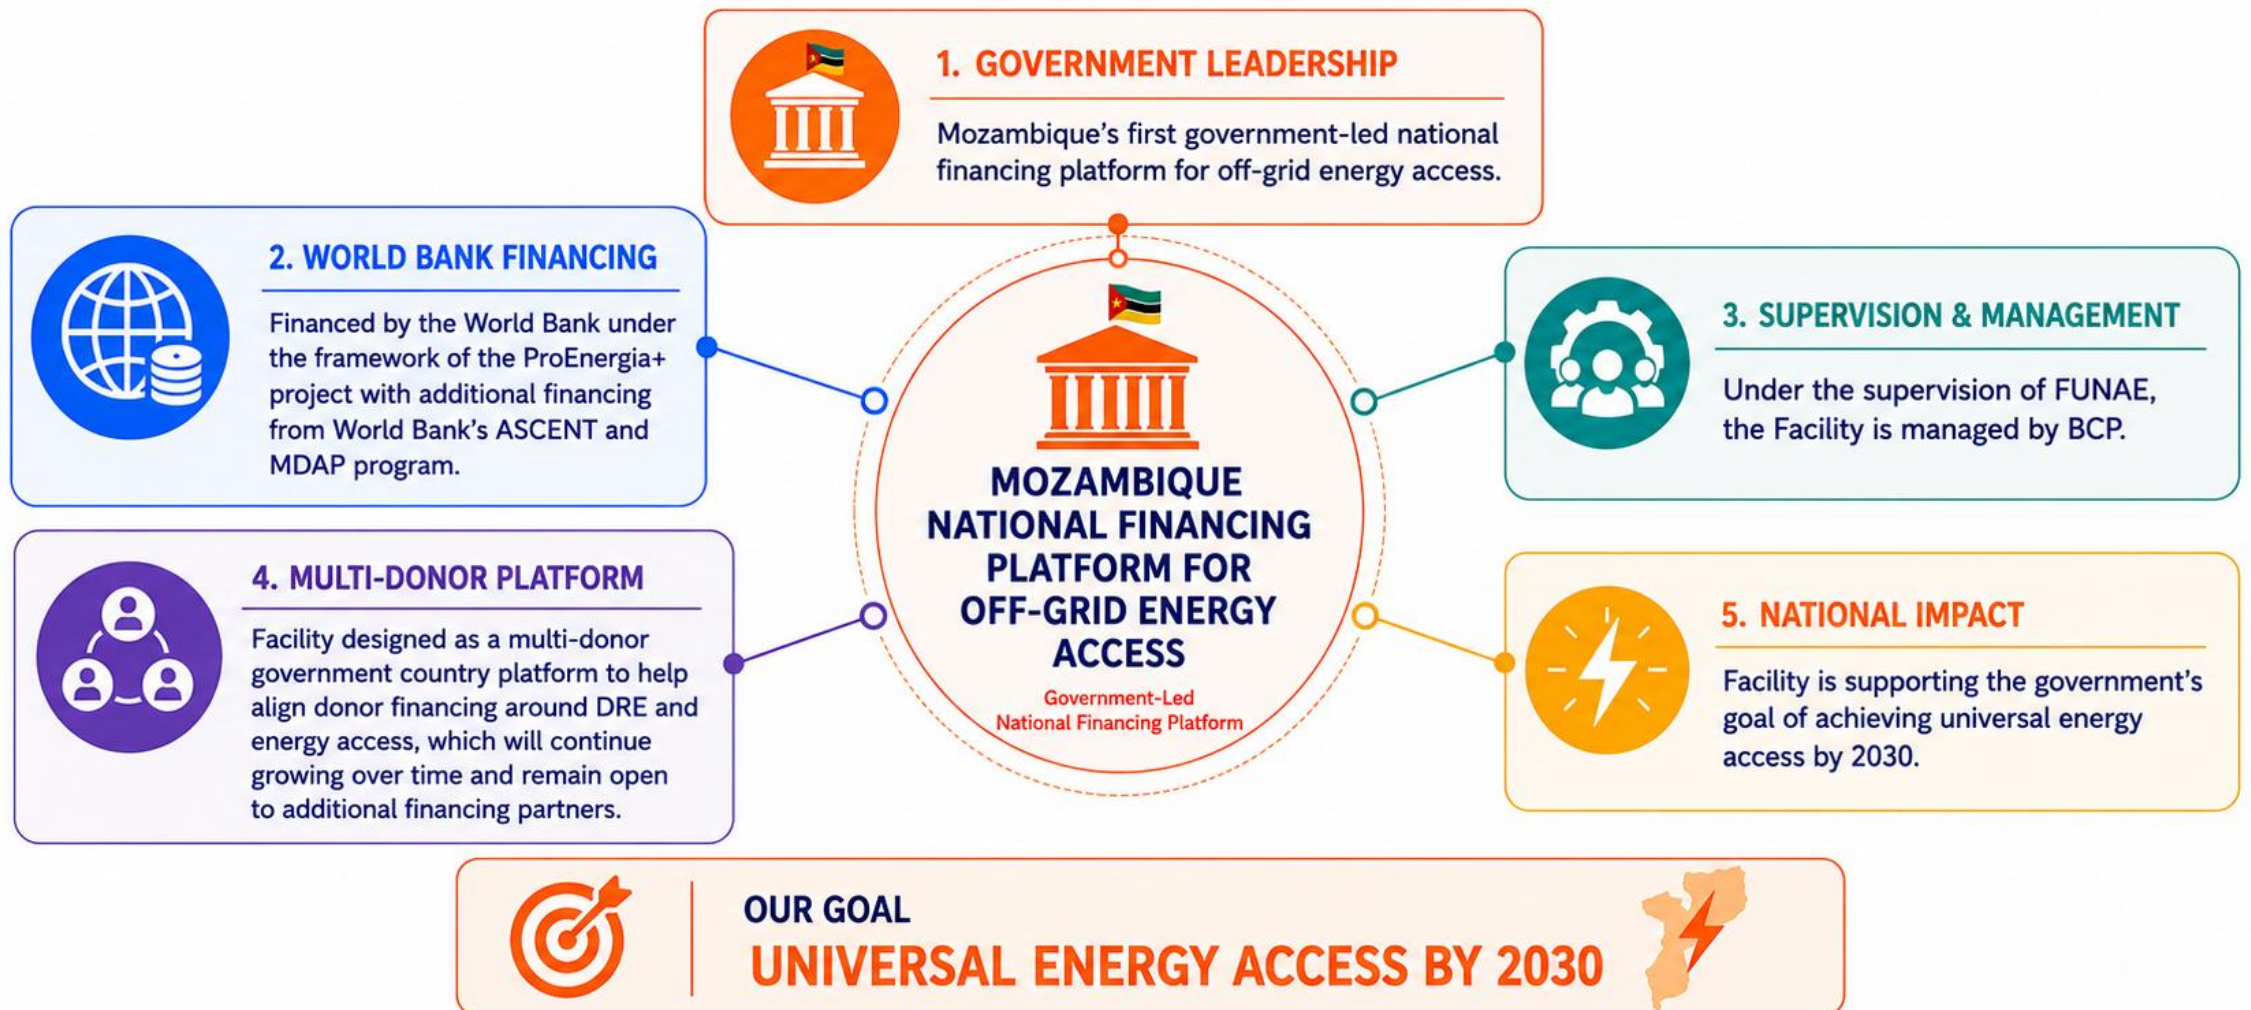

BAMBOO
CAPITAL PARTNERS

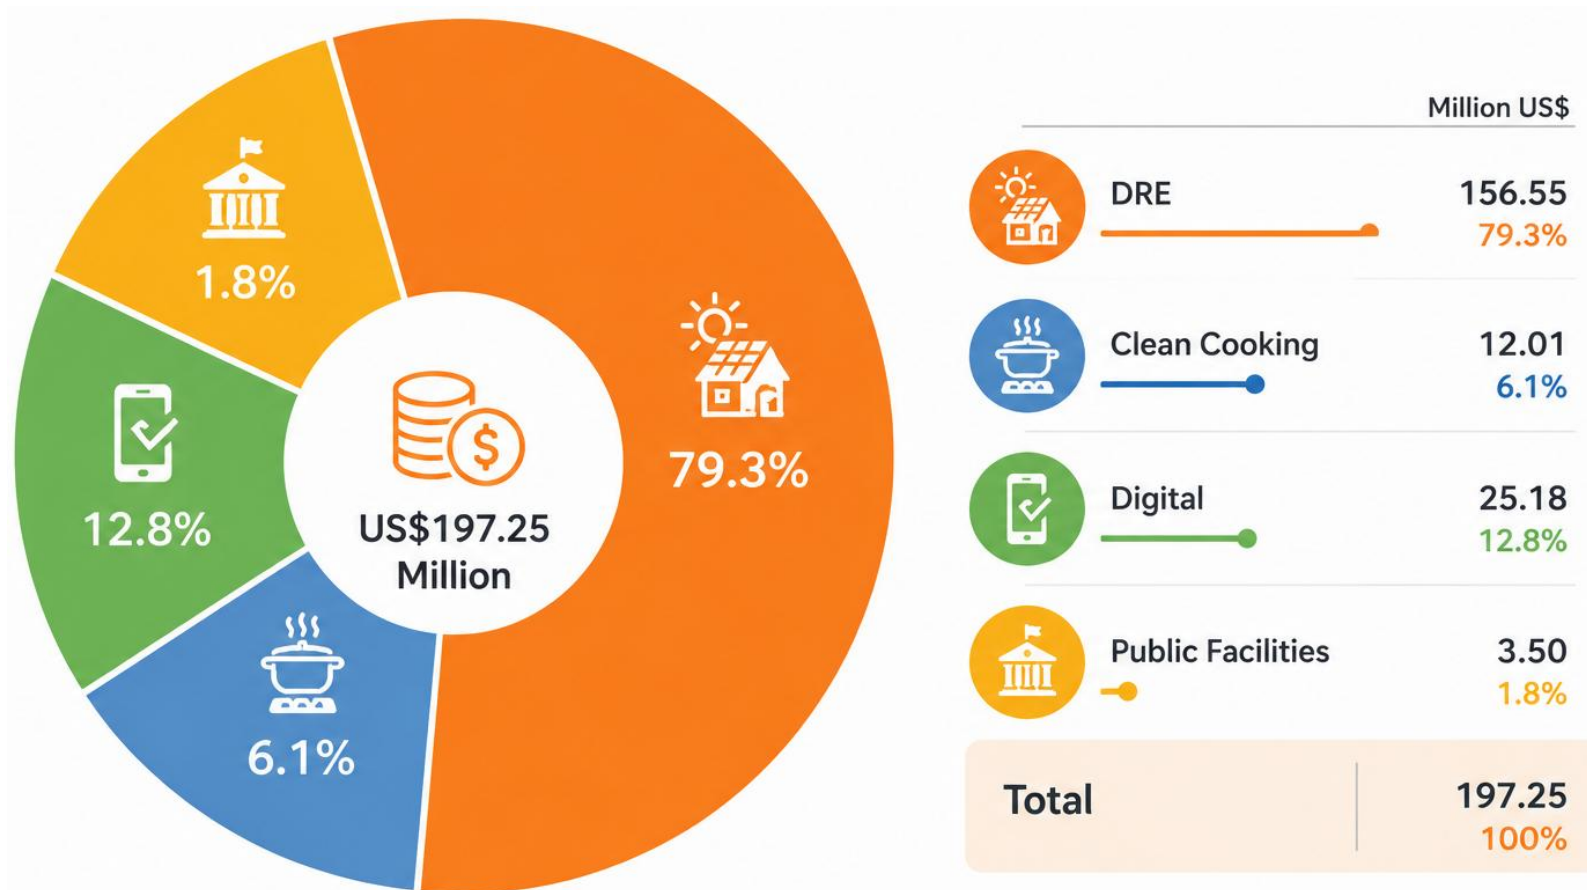

+Energia at a Glance

A multi-donor financing platform aligning resources and accelerating progress toward universal energy access

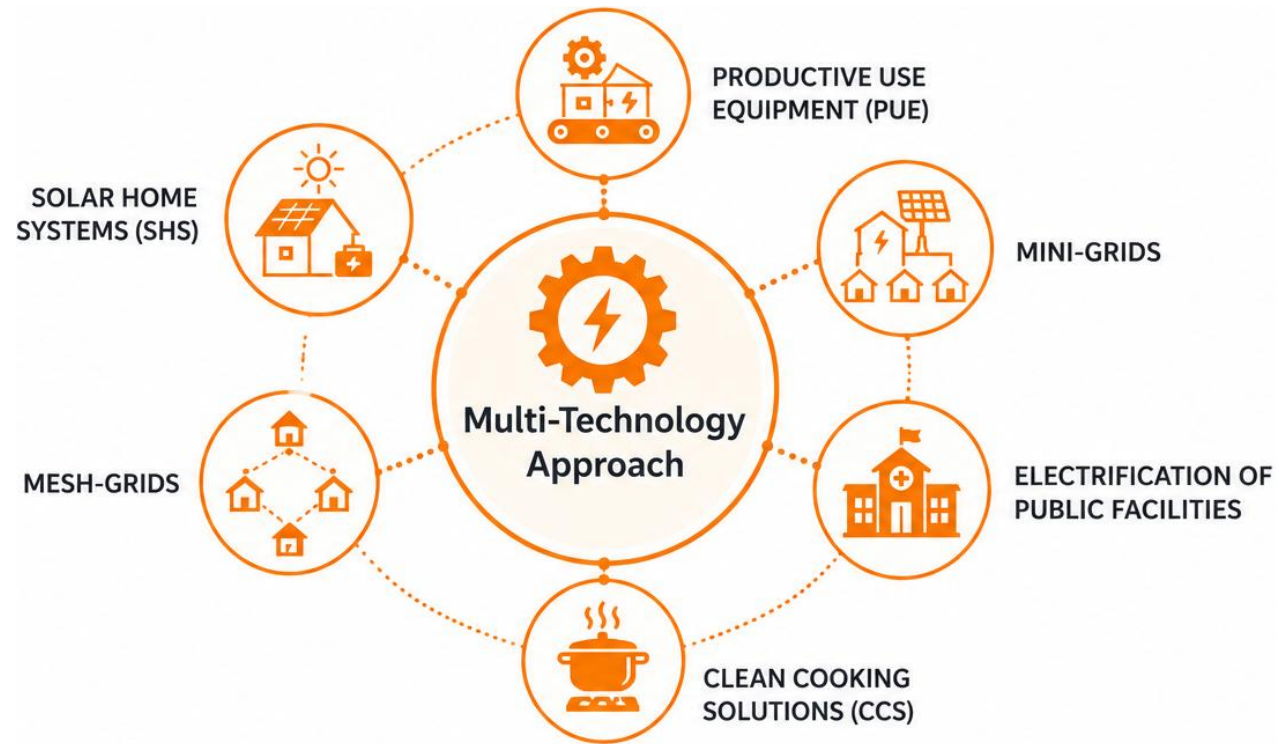

+Energia Funding

Government Facility
with funding from
World Bank
programs
ProEnergia+,
ASCENT, and
MDAP

Multi-Technology Approach

TAILORED SOLUTIONS

Match technologies to the diverse needs and geographic conditions

COST EFFICIENCY

Combine technologies to minimize costs and maximize resource efficiency

REDUCED RISK

Reduce the risk of over-investment in unsuitable technologies and approaches

RESOURCE OPTIMIZATION

Leverage economies of scale by shifting funding where it has the biggest impact

EFFICIENT ENERGY FOR ALL

Ensure that both basic and productive energy needs are met in the most efficient way

Flexible Design

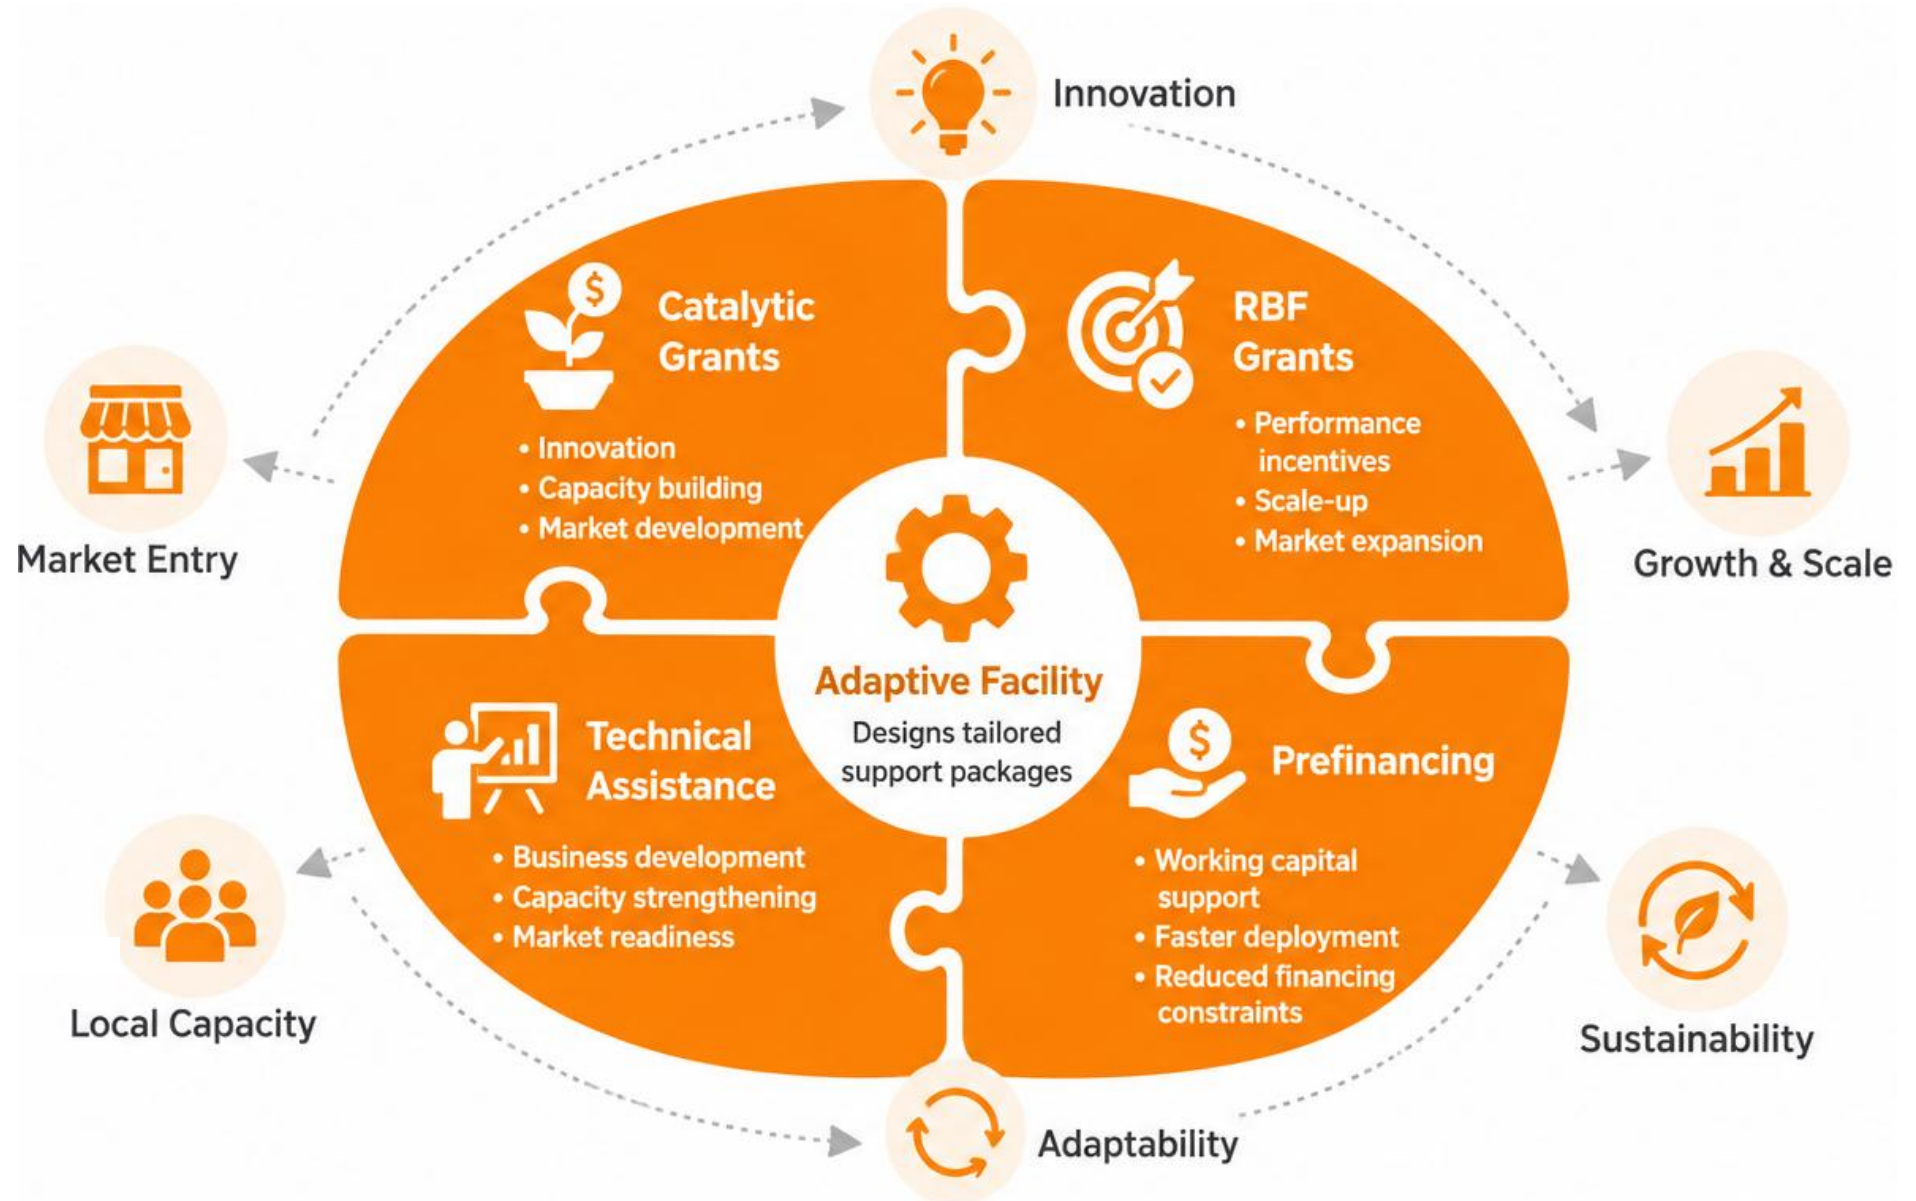

modular building-block approach

Adaptive Support Packages Tailored to Market Needs

+Energia

combines different support instruments from catalytic and RBF grants with prefinancing to technical assistance to address the specific needs of different business models, capacities, and stages of market development.

Support Windows & Instruments

Targeted instruments to accelerate off-grid energy solutions across technologies and business models

Thank You!

Together for a better future
