What is Brisk Boost?

Brisk Boost helps educators turn online resources into AI-powered activities, track engagement in real time, and teach in a secure, tech-forward environment.

Engage students
with interactive resources
to deepen learning.

Easily scaffold
activities with clear objectives,
fostering independence.

Save time
with real-time data and
instant AI feedback.

Here's how it works:

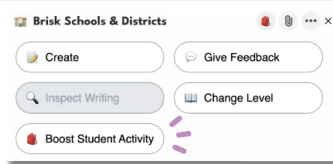

Find a Resource

Choose any material online - like a Google Doc, YouTube video, or web article.

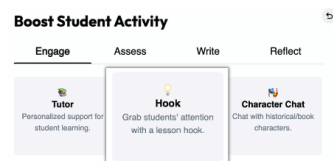

Boost It

Open the Brisk Chrome extension and Boost Student Activity to quickly turn your resource into an interactive activity.

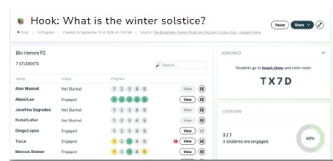

Build an Activity

Decide whether you want to engage or assess your students. Then, create an activity in seconds, aligned with learning objectives.

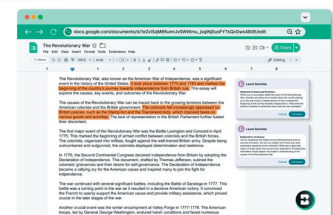

Share & Monitor

Share the code with students and track student engagement!

What is the Brisk Boost Chrome Extension?
